MORE TUNDRA SPORT PARTS

Sport Cat-Back Exhaust

Rust-resistant stainless steel muffler provides an increase of 3-4 rear-wheel hp and a deep, throaty tone. Using your truck's attachment points, muffler bolts on without cutting or bending. (Single outlet shown, dual also available)

Transmission Oil Cooler

Off-road racing design provides more surface area and increased heat transfer helping your engine stay cooler.

Boost Gauge (Lighted)

From 30 inches of vacuum to 15 psi of blower boost, gauge monitors the performance of your supercharged engine. Includes hardware, A-pillar mount and wiring for integrated light.

Supercharger Package

The TRD Supercharger provides the greatest power increase of any TRD product - 75 hp/77 lb.ft. of torque. With more throttle response and performance, this powerful bolt-on makes your V6 work and breathe like a V8. Newly redesigned manifold offers better efficiency and is smog legal in all 50 states.

Fender Flares

TRD's muscular fender flares add an aggressive look while providing greater coverage for wider tires. Made of tough OEM-grade ABS plastic, they are available in black, white, red and unpainted black matte finish. Installation is an easy, no-drill operation. (Other factory colors available on special order - allow 10 weeks for delivery)

SALES & WARRANTY INFORMATION

From the racetrack to the street, TRD is integral in providing Toyota with an enhanced performance image. We engineer and market a variety of aftermarket components designed to improve the driving experience of Toyota owners. Developed to exceed customer expectations, our Sport Parts are premium quality, warranted by TRD and available only at Toyota dealerships nationwide. Some parts may carry an enhanced TRD Limited Warranty when installed by a Toyota dealer. For more information on TRD Sport Parts and Warranty, contact your local Toyota dealer or log onto www.trdusa.com.

TRD 2000 Sport Parts Catalog

New full-color catalog contains 60 pages of TRD parts, application charts and glossy spreads of the hottest TRD show cars. The catalog costs \$7 and includes a bonus discount offer. Call 1.800.688.5913 or visit www.trdusa.com to order.

TRD Performance Accessories

High-Performance Oil Filter
Super-filter helps protect engine by trapping more grit and grime.

Gear Shift Knobs
Choose from: black leather, aluminum/leather and black matte aluminum/carbon fiber.

High Flow Air Filter
Better filtration, lower resistance to air flow. A longer lasting engine and some extra power.

Radiator Cap
Higher pressure cap raises boiling point for increased cooling efficiency.

Oil Filler Cap
Show your dedication to Toyota performance with a TRD billet-style aluminum oil cap.

Front Bumper and Grille

Stylish front bumper treatment is constructed of durable polyurethane and finished in clear-coated, chip-resistant factory colors. One-piece grille surround includes laser-cut charcoal mesh insert with TRD emblem.

Mirror Covers

Matched to your Tundra's factory color, mirror covers are constructed of durable polyurethane, and are chip-resistant.

Fender Flares

Wide lip fender flares are constructed of durable polyurethane and finished in clear-coated, chip-resistant factory colors. Flares include integrated mudguards.

High-Performance Shocks

Manufactured exclusively by Bilstein for TRD, strong monotube design and rising-rate valving improve on-road handling and off-road ride. Gas-charged to ensure fade resistance.

16" Wheel/ BFGoodrich Tire Set

Pressure-cast one-piece, 5-spoke aluminum wheels include forged aluminum center cap with embossed TRD emblem. Tires are 265/70R16 BFGoodrich All Terrain T/ATM

IVAN STEWART SIGNATURE EDITION TUNDRA PACKAGE

Ivan "Ironman" Stewart knows Toyota trucks. He's been off-road racing for 27 years, the last 17 exclusively in a Toyota truck. His accomplishments? 84 career victories, 10 driver's championships, 17 Baja 500s, 8 Mint 400s, 4 Parker 400s and 3 Baja 1000s. They don't call him "Ironman" for nothing. So when Ivan inspires a package for the hottest new V8 truck in America, the Toyota Tundra, you might want to take a closer look.
